PHP POS™ partners with Novera Payment Solutions, LLC to provide integrated credit & debit card acceptance for its users.

PHP Point Of Sale, LLC offers U.S. customers integrated payment processing through a new integration for Worldpay.

Rochester, NY. April 25, 2017 – PHP POS™ a leading provider of Web based software solutions designed exclusively to meet the requirements of retailers with either single or multiple locations is pleased to announce a partnership with Novera Payment Solutions, LLC to board U.S. merchants via Worldpay. The new integration will allow PHP POS™ users to securely process credit card payments through PHP POS™ for its U.S. customers using Worldpay.

Novera Payment Solutions, LLC will provide the management of the program for PHP POS™ users who are interested in using the new integration and merchant account service. PHP POS™ users can have multiple pricing options and plans such as (A) Flat Fixed Fee for new and growing businesses or (B) Cost plus pricing plans for the more volume intensive users. The integration is available now and PHP POS™users can go to www.noverapaymentsolutions.com/phppos to get additional information.

"The partnership with PHP POS™ is exactly the type of relationship we look for with Integrated Software Vendors (ISV's). It's a collaborative effort that delivers a real win for all parties. PHP POS™ has produced a great offering for retail business owners, and we are extremely pleased to be partnered with them" said Sean Grace, CEO for Novera Payment Solutions, LLC.

 "With Novera and Worldpay, we are pleased to offer our users another secure integrated credit card solution that will enhance the PHP POS™ offering and benefit our users both economically and functionally," said Chris Muench, Owner of PHP POS™.
